ONLINE SAFETY POLICY

(This policy is based on the Norfolk Model Online Safety Policy)

Writing and reviewing the Online Safety policy

This Policy is part of Federation's Statutory Safeguarding Policy. Any issues and concerns with online safety must follow the school's safeguarding and child protection processes.

- The Federation will identify a member of staff who has an overview of Online Safety, this is the Designated Safeguarding Lead (DSL).
- Our Online Safety Policy has been written by the Federation, based on best practice and government guidance. It has been agreed by the Headteacher, staff and approved by governors.
- The Online Safety Policy and its implementation will be reviewed annually
- The Online Safety Policy was discussed by Staff and approved by the Governors

Rationale

The purpose of this policy is to:

- Set out the key principles expected of all members of the Federation community at Morley and Tacolneston Schools with respect to the use of technologies.
- Safeguard and protect the children and staff.
- Assist Federation staff working with children to work safely and responsibly with technologies and to monitor their own standards and practice.
- Set clear expectations of behaviour and/or codes of practice relevant to responsible use of technologies for educational, personal or recreational use for the whole Federation community.
- Have clear structures to deal with online abuse.
- Ensure that all members of the Federation community are aware that unlawful or unsafe behaviour is unacceptable and that, where appropriate, disciplinary or legal action will be taken.
- Minimise the risk of misplaced or malicious allegations made against adults who work with students.

The main areas of risk for our Federation community can be summarised as follows:

Education and Curriculum

Pupil online safety curriculum

This Federation:

- Provides children with a clear understanding of how to stay safe online. This covers a range of skills and behaviours appropriate to their age and experience
- Will remind pupils about their responsibilities through the online safety rule posted in all networked rooms. This is done at the start of the Autumn term and then at least the start of each term.
- Ensures staff are aware of their responsibility to model safe and responsible behaviour in their own use of technology, e.g. use of passwords, logging-off, use of content, research skills, copyright. This is consistent with GDPR.
- Ensures staff and pupils understand issues around plagiarism; how to check copyright and also know that they must respect and acknowledge copyright/intellectual property rights

Staff and governor training

This Federation:

- makes regular up to date training available to staff on online safety issues and the Federation's online safety education program

Cyberbullying is defined as "The use of Information Communication Technology, particularly mobile phones and the internet to deliberately hurt or upset someone" DCSF 2007.

- Children are required to follow our online rules posted in all networked rooms
- It is essential that pupils, staff and parents/carers understand how cyberbullying is different from other forms of bullying, how it can affect people and how to respond and combat misuse.
- Promoting a culture of confident users will support innovation and safety. CEOPS and Childnet have produced resources and guidance that will be used to give practical advice and guidance on cyberbullying.
- Cyberbullying (along with all forms of bullying) will not be tolerated in our Federation. All incidents of cyberbullying reported to the Federation and will be recorded.

There are clear procedures in place to investigate incidents or allegations of bullying:

- Pupils, staff and parents/carers will be advised to keep a record of the bullying as evidence.
- The Federation will take steps to identify bullying behaviour, where appropriate, such as examining system logs, identifying and interviewing possible witnesses, and contacting the service provider and the police, if necessary.
